Patrick M.

“I like to play on my I-pad.”
Alicia K.

“Hanging out at the lake.”
Janinne

Progressive Health would like to wish Derek from the transportation department good luck at his new job!
Every year, a few of our clients participate in a program called “The Reckless Driving Program.” On Thursday March 24th, a group of clients shared their stories at High Point Regional High School. These stories covered topics such as the dangers of not wearing seatbelts, drinking and driving, speeding, and distracted driving. The clients expressed how different their lives are because of reckless behaviors and encouraged safe actions when behind the wheel. This program has run for six years and was developed by CSC Helen W. to educate high school students on the importance of safe driving. We are very proud of our clients who are brave enough to share their stories.

“Imagine my life--how it has changed... Forever. Things will never be the same for me or for my family.”

“Please play it safe. Your life depends on it!”

“I have many therapies; people assist me with daily living skills. Dressing, showering, getting in and out of a car, going places, making my meals, everything requires extra tasks and more effort. This was not the life I anticipated at 17.”

“In conclusion, I would like to say, if this should happen to you, try to be positive and never give up. Know you can accomplish anything by keeping the faith.”

April is Distracted Driving Awareness Month! Test Your Knowledge With This Quiz!

1. How many people die every day from traffic accidents?
